Funga

Who are we?

Contact

Discover the wonderful world of fungi in Panama.

The future is FUNGI

DONATE

Panamenian FUNGA

"Discover the incredible diversity of Panama's fungi, with approximately 3,292 species recorded and many more to be discovered in the country's rich ecosystems."

Nuestra misión

Inspirar al mundo con las maravillas que nos brinda el reino Fungi, siendo un medio de divulgación científica de y para la sociedad.

Construir una relación más próxima entre la comunidad científica y la ciudadanía, brindando el conocimiento dentro del alcance de todos aquellos que estén interesados en el mundo Fungi.

Incentivar en los jóvenes estudiantes el deseo de descubrir sobre nuestro entorno, posicionando a la ciencia como uno de los pilares más importantes para el desarrollo de nuestro país y futuros investigadores.

Visión

THE FUTURE IS FUNGI

Ser pioneros en liderar por primera vez en el país, una comunidad de micólogos y aficionados por el mundo Fungi, dando la oportunidad de colaboraciones que nos ayuden a crecer como sociedad; eliminando la barrera entre la ciudadanía y la comunidad científica.

Creyendo fielmente en nuestra consigna:

"Por un mundo más Fungi".

"We are a group of young Panamanian biologists passionate about the world of fungi. We believe in their importance to ecosystems and aim to inspire awareness about their conservation by exploring and sharing their amazing diversity."

Team Fungi

"Our mission"

"Inspire the world with the wonders provided by the Fungi kingdom, serving as a medium for scientific outreach to and for society."

"Build a closer relationship between the scientific community and the public, providing knowledge within reach of all those interested in the world of fungi."

"Encourage young students' desire to explore our environment, positioning science as one of the most important pillars for the development of our country and future researchers."

Vision

THE FUTURE IS FUNGI

"To be pioneers in leading, for the first time in the country, a community of mycologists and enthusiasts of the Fungi world, offering opportunities for collaborations that help us grow as a society; breaking the barrier between the public and the scientific community.

Truly believing in our slogan:

'For a more Fungi world.'"

de Fundación Micológica de.

1. Fungi Database

Create an online database of Panama's fungi species for education and research.

2. Environmental Education

Raise awareness about fungi's ecological role through community and school campaigns.

3. Indigenous Collaboration

Document indigenous knowledge of fungi and promote sustainable practices.

4. Edible Mushroom Partnership

Partner with local mushroom farms to promote sustainability and nutrition.

5. Fungi Research Lab

Set up a lab to study fungi's medicinal properties and ecological impact.
